A
tip
sheath
State 1
State 2
wire
contact
B
KKT multipliers
$-B(\kappa'' + \frac{1}{2}\kappa^3), H = 0$
cumulative wall reaction (N)
end of iliac
arc length along the wire s (mm)
C
force (N)
$-\frac{1}{2}B\kappa^2$
axial force N from multipliers
material force H from multipliers
arc length along the wire s (mm)
